SPECIAL FEATURES

Corium Z161 "Double Action" Power Belt Dressing is the superior formulation in aerosol packaging that provides you with the fast, easy and clean way to safeguard and extend the service life of all types of power transmission belts.

- **Corium Z161** effectively protects and prolongs the working life of all types of power belts.
- **Corium Z161** features super adhesive qualities to ensure long-lasting protection – it will not drip or throw off.
- **Corium Z161** increases traction to minimize belt slippage and improve overall engine efficiency.

OUTSTANDING PROPERTIES

Corium Z161 is the advanced formula power belt dressing that:

- Is easy to use – just point spray on to belts while operating.
- Is effective on all sizes and types of belts – even including rubber, leather and fabric belts.
- Will not break down from heat, conventional lubricants or moisture.
- Increases belt traction and boosts power output – adds new life to old belts.

USE FOR

Corium Z161 is a superior formulation based on natural resins that provide a uniformly coated spray application. These ingredients will yield an increase in power and control slippage on all types of flat, round or V-shaped power transmission belts.

Corium Z161 is designed specially to prolong the service life of belts and significantly reduce maintenance and downtime – it saves you time and money!

Use **Corium Z161** confidently on all types and sizes of power transmission belts in automobiles, machinery and equipment.

CORIUM Z161 “Double Action” Power Belt Dressing

Corium Z161 is an aerosol packaged power belt dressing which is a fast, easy and clean method of protecting and prolonging the service life of all types of power transmission belts. Corium Z161 has these unique features:

1. Super adhesive properties - when applied to power belts Corium Z161 will not drip or throw off and may be applied to belts while operating without personal risk, greatly reducing maintenance time and costs.
2. Effective on all types of power belts even including rubber, leather and fabric belts.
3. Will not break down from heat, conventional lubricants, or moisture.
4. Corium Z161 increases belt tension which increases power output. Corium Z161 gives new life to old belts.

Corium Z161 is based on halogenated solvents blended with natural resins and phenol variates which provide a uniformly coated spray application. These ingredients will yield an increase in power and control slippage on all types of flat, round or V-Belts.

HOW TO APPLY

APPLICATION:

1. Shake can thoroughly.
2. Hold the can 100-150 mm (4-6") from the area to be sprayed and spray the belt.
3. After application, invert can and spray until clear gas appears to prevent nozzle clogging.

IMPORTANT:

Strictly observe all safety precautions relevant to the use of an aerosol product and/or on the can's label.
